5。	,	
25X1		

- 6. Following is an emphasation of Attachment showing the vicinity of the Botanical Cardens in Sukhumi:
  - No. 1 Beriya Street
  - Mo. 2 Lenina Street leading to the railroad station Lechkop
  - No. 3 Two small reads, starting from Lenina Street and leading to the countryside. They meet a small distance to the north of the railroad line Gudauti Tbilisi.
  - No. 4 Bridge on the above railroad line, called Estakada, made of iron and concrete. It is about 300-400 m. long.
  - No. 5 Myasnikova (sic) Street
  - No. 6 Engelsa Street
  - No. 7 Small river, about 3-5 m. wide, called Sukhumka
  - No. 8 A mountain, called Mt. Cherniyavskaya
  - No. 9 Railroad tunnel through the above mountain, 1-1.5 kilometers long
  - No. 10 A brick three-story building with dimensions approximately 15x20 meters. During the war there were soldiers stationed here.
  - No. 11 Since 1947 a new station has been under construction in this space.
  - No. 12 A wall made of concrete half a meter thick and about 3 m. high.
    It runs along the railroad kine and fences the north side of the
    Botanical Gardens.
  - No. 13 Wire not, about 1.5 to 2 m. high, around the Botanical Gardens.
  - No. 14 A wall, about 0.80-0.90 m. high with wire-net on it, about 1-1.5 m. high, fencing the south side of the Botanical Gardens.
  - No. 15 Main entrance to the Botanical Gardens with iron gate, about 3-3.5 m. wide and 3 m. high. This gate remains shut and is opened only to allow entrance to the trucks for cleaning the gardens.
  - No. 16 Small entrance for the visitors
  - No. 17 Ticket-box where visitors pay one ruble entrance fee.
  - No. 18 A three-story building made of brick and called Institute for Scientific Research on Trees and Plants.
  - No. 19 Restaurant of the above building, about 10x5 meters in dimension.

    Thirty to forty civilians and officers up to the rank of captain used to eat in this restaurant during the war until 1946, when it closed down. The restaurant had eight to ten tables; about 10 persons were working in it, one man and 9 women.
  - No. 20 Yard of the laboratory building, about 35-30 meters in dimensions.
  - No. 21 A wire fence, 1.5-2 meters in height, which encloses the above yard.
  - No. 22 Vehicle entrance to the above yard. It has an iron gate 3.5 meters wide and approximately 1.5-2 meters high.
  - No. 23 Entrance for the pedestrians to the above yard.
  - No. 24 A small photographer's shop for the garden visitors.
  - No. 25 A water reservoir with a water fountain
  - No. 26 Two small houses: one-story buildings, approximately 4x6 meters, where the garden laborers live.
  - No. 27 A two-story building built of bricks, 15x10 meters, used is living quarters of the garden workers.
  - No. 28 A one-story building, about 7x8 meters, where the garden commissioners live.
  - No. 29 A one-story building, similar to the previous one; it is used as living quarters by those working in the laboratories of the garden.
  - No. 30 A three-story building, about lows meters. The Ministry of Agriculture is housed on the third story of this building.
  - No. 31.A small garage for the above Ministry of Agriculture
  - No. 32 Nurseries in which the various experiments on plants take place.
  - No. 33 Vehicle entrance of the above garage
